

BRIGHT MOTORS ANALYSIS

Bright Motors Sales Analysis & Optimization

Turning Data into
Dealership Profitability

Presented by:
Belinda Madzhie,
Junior Data Analyst

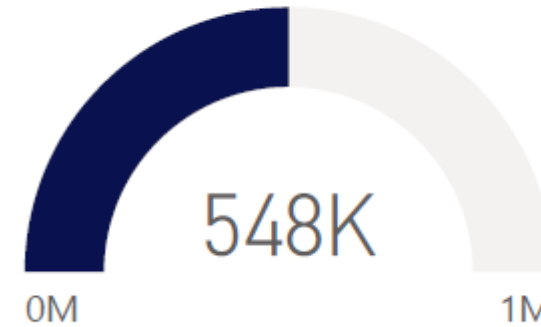

Executive Overview (The Big Picture)

Total Revenue: R 5.6 Billion

Total Volume: 558,811 Units

Total Revenue

- **Core Objective:** Identifying which brands, locations, and vehicle types drive our maximum profit to optimize future inventory purchases.
- **Key Finding:** 96.5% of the market prefers Automatic vehicles, suggesting a significant shift in inventory strategy is required.

REVENUE LEADERS: THE TOP 10

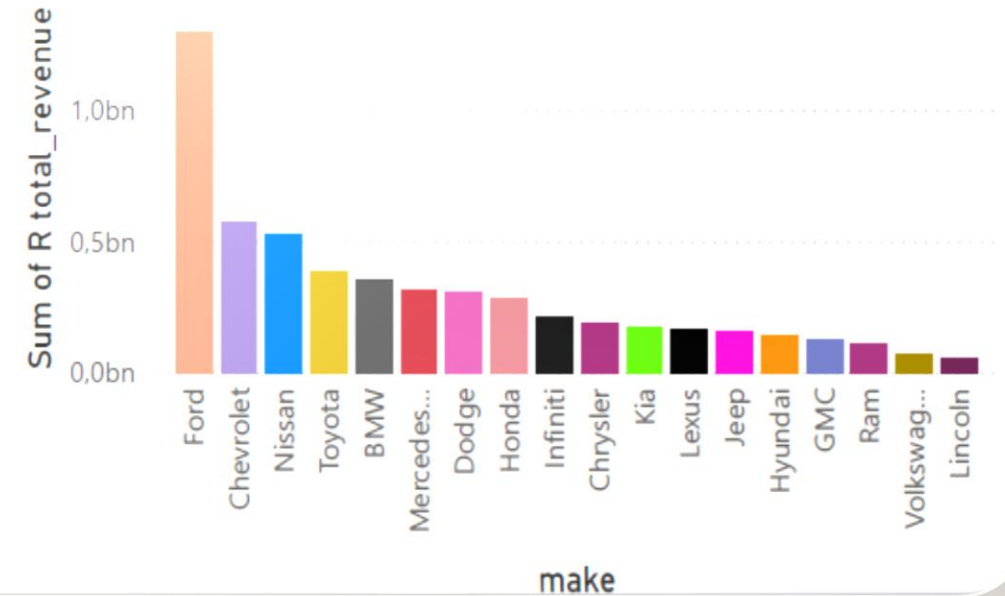

Insights

Ford F-150 is the undisputed leader, generating R 272.6 Million.

Nissan Altima follows as a strong second at R 220.9 Million.

Strategic Action: Maintain "Aggressive Stocking" levels for the top 5 models (F-150, Altima, Escape, Fusion, and G Sedan) as they represent our most reliable cash flow.

The car that generates most revenue

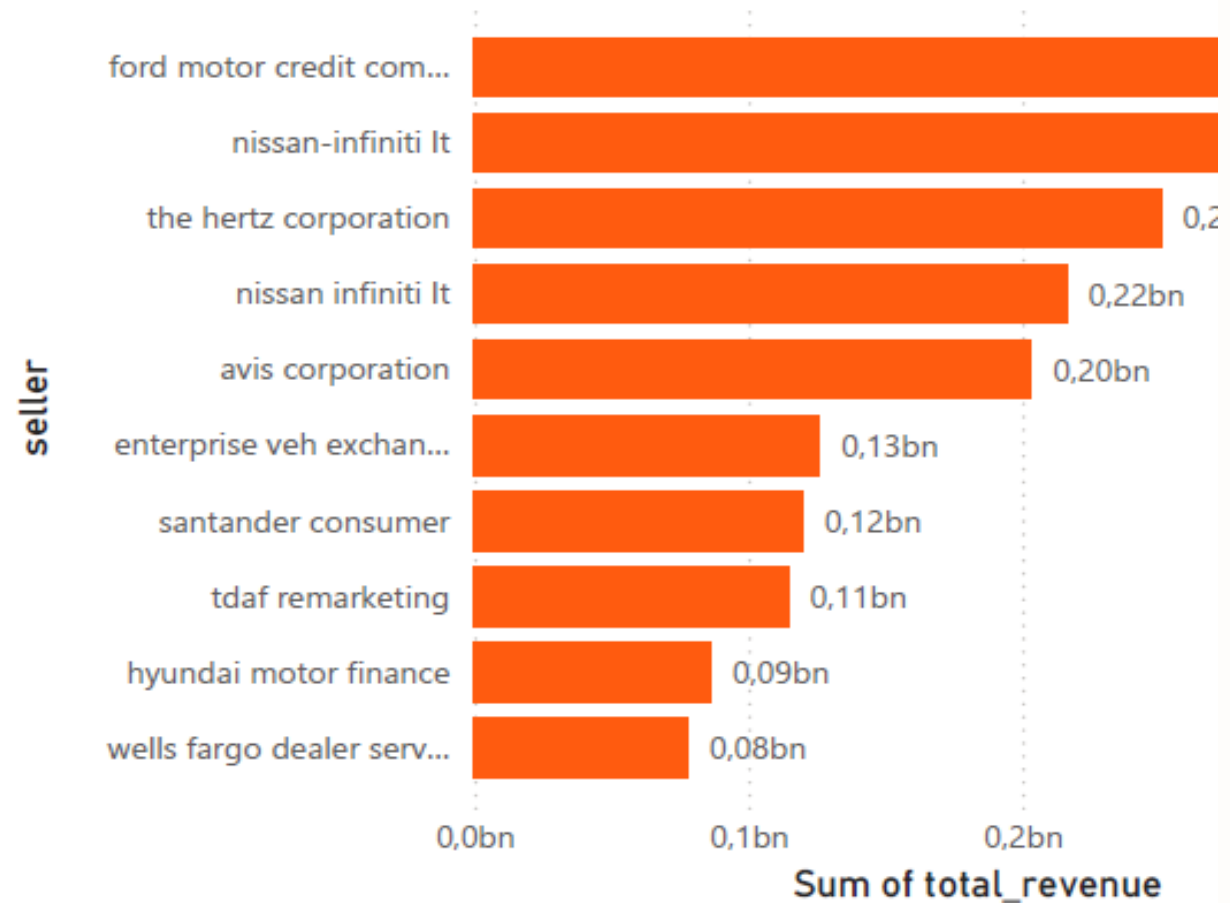

REGIONAL PERFORMANCE: TOP SELLERS

Insights

- Nissan-Infiniti LT and Ford Motor Credit Company are the highest performing sellers.
- These locations move high-value inventory efficiently.
- Action: Analyze the sales techniques used at these top-tier locations to train staff at lower-volume sellers.

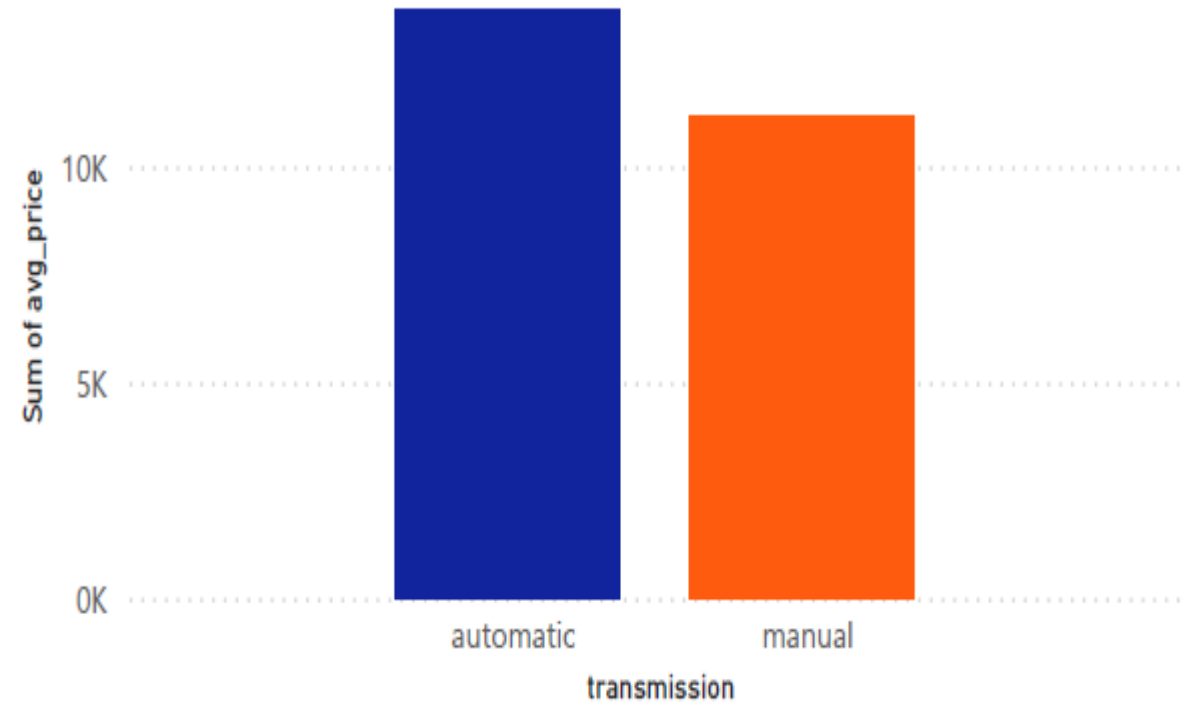

Top 10 Sellers bu units Sold

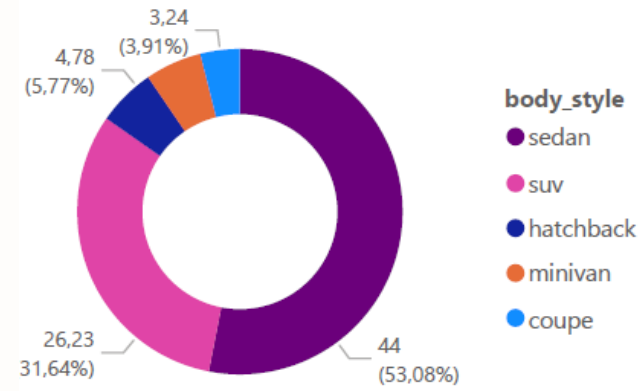

The Transmission Shift

- **Automatic:** 467,915 units sold (96.5%)
- **Manual:** 16,993 units sold (3.5%)
- **Price Insight:** Automatic vehicles sell for an average of **R 2,445 MORE** than manual versions.
- **Action:** Stop the general acquisition of manual transmission cars. They occupy a lot of space with a lower return on investment.

FINAL RECOMMENDATIONS & NEXT STEPS

- **Inventory Focus:** Double down on Ford and Nissan SUV/Truck models.
- **Phase Out Manuals:** Standardize inventory to 100% Automatic for non-specialty vehicles.
- **Condition Control:** Use the Condition Score (40+) as a mandatory buying guide for auction acquisitions.
- **Dashboard Monitoring:** Use the Power BI dashboard to track these KPIs weekly.
